The airport feels bigger once there is no turning back.

Excitement and fear can live in the same heartbeat.

Rome is still only a destination on paper. But every step makes it more real.
Okay. Just keep walking.

Away from the noise, the decision sounds louder.
What if I get there and I'm not enough?
Sometimes courage arrives quietly.
Or what if this is exactly where I'm supposed to go?

For a second, the future stops feeling like a threat.
Ahead, she can almost see the city glowing for her.
Rome.

The fear is still there. It just isn't in charge anymore.
Lets do this.
Whatever waits in Rome, she is finally on her way to meet it.

Rome feels bigger than the dream that brought her here.
But the moment she steps into the agency, the dream becomes immediate.
I'm here for the audition.
Every doubt narrows to a single line forward.
Okay. One step at a time.

The audition begins.
Then instinct takes over.
Ive got this.
When it ends, silence feels endless.
Then everything changes at once.
Accepted?
CONTRACT

Rome says yes, and the industry answers with light.
Her first shoots turn heads fast.
One booking becomes another. Then another.
In the city she once feared, Maddy becomes a successful model and fashion star.
I really made it.

Bring it "Rome"
